Please disregard caption describing EC Bar Ranch Estates on [Google Map](#)

In 2017, the Arizona Game and Fish Commission acquired the 390-acre EC Bar Ranch for the protection of fish and wildlife habitat along Nutrioso Creek in perpetuity. The EC Bar Ranch Estates subdivision lots and roads that previously existed on both sides of Nutrioso Creek have been abandoned. There are no roads on the EC Bar Ranch available for public use. The EC Bar Ranch adjoins the 5.11-acre horse property on the north, east and west sides. The only access to the horse property is from County Road 2112 along a driveway on the east side of the horse property, constructed in 2020 adjoining EC Bar Ranch, and on the west side of the 5.11 acre parcel. The Ranch is now a wildlife preserve so unlimited public access is prohibited for any recreational activities, including hunting, fishing, camping, and vehicular uses.
